Student Global Ambassador Project- Michele Joseph, MBA, Executive Director
 SGAP is an education and community outreach organization that customizes unique out-of-the-classroom experiences focused on global learning for 7th – 12th grade students. Topics align with the United Nations' Millennium Development Goals of which environmental sustainability is one.

Institute for Sustainable Enterprise- Joel Harmon, PhD Executive Director and Kent Fairfield, PhD

ISE educates current and future leaders of business, government, nonprofit, and educational institutions about managing sustainably by focusing on products, processes, and services that add value to the organizations and are beneficial to people and the planet.
